

ABOUT

.NET Full Stack Developer with 3+ years of experience building scalable web applications across ASP.NET Core, C#, SQL Server, Entity Framework, HTML, CSS, JavaScript, and REST APIs. Designs and delivers secure backend systems, database-driven applications, and authentication integrations. Has deployed cloud-enabled enterprise solutions on Microsoft Azure and works effectively within Azure DevOps, GitHub Actions, CI/CD pipelines, and Agile teams. Brings a strong record in API development, SQL optimization, debugging, and code reviews — consistently shipping high-performance applications that meet real business requirements.

EXPERIENCE

.NET Full Stack Developer

Feb 2025 – Present

Snovasys Software Solutions Ltd

- › Developed and maintained scalable enterprise web applications using ASP.NET Core, C#, Angular, SQL Server, and REST APIs.
- › Designed and implemented secure backend APIs with authentication and authorization mechanisms using JWT and Okta integration.
- › Worked on full-stack feature development including frontend UI enhancements, backend business logic, and database optimization.
- › Integrated Azure cloud services and automated application deployments using Azure DevOps and GitHub Actions.
- › Collaborated with cross-functional teams in Agile/Scrum environments to gather requirements and deliver high-quality software solutions.
- › Optimized SQL Server queries, stored procedures, and caching strategies to improve application performance and reduce response times.
- › Participated in code reviews, debugging, and production issue resolution to ensure application stability and maintainability.
- › Managed Docker-based deployments and supported Kubernetes environments for scalable application hosting.

Software Engineer

Feb 2024 – Feb 2025

Snovasys Software Solutions Ltd

- › Built and enhanced full-stack modules using ASP.NET Core, Angular, JavaScript, and SQL Server.
- › Developed RESTful APIs and integrated third-party services for enterprise applications.
- › Created reusable frontend components and implemented responsive UI designs using HTML, CSS, and Bootstrap.
- › Worked on CI/CD automation pipelines using GitHub Actions and Azure DevOps.
- › Assisted in database schema design, SQL query optimization, and API performance tuning.
- › Collaborated with QA and development teams to troubleshoot issues and improve code quality through peer reviews.

Snovasys Software Solutions Ltd

- › Assisted in developing frontend and backend functionalities using .NET Core and Angular.
- › Worked on SQL Server database management, stored procedures, and API testing.
- › Supported cloud deployment activities using Azure App Services and Azure resources.
- › Participated in Agile ceremonies, sprint planning, and version control management using Git and GitHub.
- › Contributed to debugging, documentation, and application enhancement activities.

PROJECTS

Time Champ – Employee Monitoring Platform

Developed backend modules and deployment automation for a large-scale employee monitoring platform using ASP.NET Core and SQL Server. Implemented CI/CD pipelines and automated deployment strategies using GitHub Actions and Azure services.

Shoppixy.in – High-Volume E-Commerce Platform

Developed scalable full-stack application features using ASP.NET Core, Angular, and SQL Server. Built automated and scalability. Integrated monitoring and logging solutions to enhance system reliability and troubleshooting. Supported containerized deployments using Docker and Kubernetes.

Smart Truck Network – Logistics Telemetry Platform

Developed cloud-enabled backend services for real-time logistics and vehicle telemetry tracking. Designed APIs and integrated Azure services for scalable data processing and secure communication. Implemented deployment automation and infrastructure configuration using Azure DevOps. Enhanced application availability through container orchestration and monitoring solutions.

SKILLS

ASP.NET Core

C#

.NET Core Web API

SQL Server

Stored Procedures

Entity Framework

HTML5

CSS3

JavaScript

Angular

REST API Development

Microsoft Azure

Azure DevOps

Git

GitHub Actions

CI/CD Pipelines

Docker

Kubernetes

Nginx

Authentication & Authorization

JWT

Okta

EDUCATION

B.Tech in Computer Science & Engineering

St. Ann's College of Engineering and Technology | 2023 | GPA: 7.37
